Corporate Relations

Allstate is proud of its 75-year history as a Chicagoland company. Our public social responsibility is an extension of our core values of caring, integrity, initiative and innovation. As a leading corporate citizen, Allstate is committed to strengthening and improving the communities where we live and work. It is because of this commitment that Allstate is particularly proud to serve as the National Tour Sponsor of The Field Museum's *Nature Unleashed: Inside Natural Disasters* exhibition.

At Allstate, we protect people from life's uncertainties and help them realize their hopes and dreams. Our support of *Nature Unleashed* furthers this mission by fostering understanding of weather and geology, so that our communities are better prepared for these phenomena in the future.

*Nature Unleashed* is an innovative, interactive exhibition with nearly 7,000 square feet of exciting, immersive experiences, compelling media, personal stories and multi-disciplinary science. These elements bring to life the principles at work behind Earth's most powerful natural phenomena and their impact on us as individuals and as a society. This world-class exhibition is a treasure for The Field Museum, Chicago and all of the cities that will host the tour over the next several years.

Allstate's partnership with The Field Museum is a demonstration of our rich legacy of giving back to our hometown and supporting its position as a center of global culture, business and education. We are thrilled that *Nature Unleashed* will debut right here in Chicago at The Field Museum and we encourage residents and visitors of all ages to explore and uncover the forces of nature that touch us all.
