Tattoo
October 21, 2016 - September 4, 2017
Ritual. Identity. Obsession. Art. Tattoos have a storied and diverse past, with practices dating back at least 5,000 years. This exhibition examines myriad and dynamic practices of tattooing around the world and throughout time-- from Japan, Polynesia, the US, Europe, North Africa, and points beyond. The exhibition includes a thoughtful exploration of a new generation of practitioners who are creating new forms of expression, while drawing upon the great ritual and artistic practices of the past.

Specimens: Unlocking the Secrets of Life
March 10, 2017 - January 7, 2018
Take a journey into the Field Museum’s vast collections. From rare deep-sea-dwelling creatures to fossil brains to meteorites, there are over 30 million specimens tucked away on shelves, in bins and cabinets, glass jars and acres of wooden drawers. They’re significant not only because of their number, but also because of the stories they tell. Scientists from around the world are using our collections every day to make discoveries, solve mysteries, and explore the wonder of the natural world. Together, these specimens weave a tapestry of life in our universe: what has been, what is, and what is still unknown. Join us on a quest to uncover the secrets these objects hold and to return to moments in time otherwise lost forever.

Romans
October 22, 2017 - April 29, 2018
Drawing from the Museum’s archaeological collections of Etruscan, Roman, Greek, and Egyptian artifacts, this exhibition will focus on the interaction between societies throughout the Mediterranean from about 500 BC through 200 AD.

Cyrus Tang Hall of China
(New Permanent Exhibit!)
Explore a culture of deep tradition and dynamic change. Through textiles, rubbings, bronzes, ceramics, and sculpture, travel across thousands of years of history of one of the world’s most influential civilizations.

Underground Adventure
Get a bug’s-eye view of the world when you magically “shrink” to 1/100th of your actual size to explore the world beneath your feet! Explore an immersive environment of worm tunnels and soil chambers, meet giant critters, and examine how the actions of people and communities may help or hurt our soil.

Please see the museum website for all sponsor and organization credit information. Dates and exhibitions subject to change without notice.

Get an insider’s perspective on the museum and unique stories about our artifacts. We’ve worked with our docent and curatorial staff to create the following options for your group to maximize time and enhance the Museum experience!

**Docent Led Tour** - $5 per person
Take a guided tour through some of our permanent collections with one of our knowledgable docents. On a Museum Highlights tour, spend 60 minutes learning about the history of the museum and allow our specialized docents to share their favorite secrets! One docent per 15-20 visitors is provided. Due to space contraints, the group may be segmented into smaller groups.

**Docent Presentation** - $5 per person
If you’ve chosen to see a special temporary exhibition, have a Field Museum docent provide your group with a 20 minute expert introduction and content overview before you enter the exhibition. Presentations are not available with all special exhibitions.

**Sip, Swirl and Learn about Sustainability** - $15 per person
The new Abbott Hall of Conservation: Restoring Earth opened in November 2011. This new hall showcases Field Museum scientists and curators as they turn conservation science into action. In celebration of this new, permanent hall opening, we have launched a conservation oriented, sustainable wine tasting package. Your group will enjoy red, white or a combination wine flight that features Terroir, Sustainable or Certified Organically Farmed Wines. Beer tastings also available!

**Scavenger Hunt** - $50 flat fee
This Q&A formatted scavenger hunt will take guests on a quest to find answers in our permanent collections. Self-guided hunts with no staff assistance start at just a $50 flat fee. The scavenger hunt is a great guide for students or an exciting team building activity for a corporate group or business outing!

All tour options must be booked a minimum of two weeks prior to visit. Ask us about other available programs!
Did you know that The Field Museum houses nearly 26 million specimens and artifacts? Less than 1% of those are on display to the public! Explore the storerooms and working laboratories that house these exquisite and unique collections during your own Behind the Scenes Tour!

Start with The Field Museum Highlights:
Start the day in our grand Stanley Field Hall with a docent-led tour of the Museum’s history and highlights. Be sure to check out SUE, the world’s largest and most complete T.rex. Also, don’t miss the fighting African elephants - part of the museum’s collection since the World’s Columbian Exposition in 1893.

Zoology and the Third Floor:
Dig into one of the non-public collections areas with a museum curatorial staff member leading the way. We’ll take you through the Zoology and Entomology departments. Get up close with real live bugs during a special presentation from a Field Museum insect expert. Hold live insects, see a scorpion glow in the dark, observe Madagascar hissing cockroaches and more! Learn about the special worker bugs that clean animal skeletons and tour the non-public third floor of the museum where our scientific staff work every day!

Tours are $59 per person with a 25 person minimum and include basic admission, a special exhibition viewing, a private docent-led Museum Highlights tour and a private hour-long Behind the Scenes Tour!

All tour options must be booked a minimum of two weeks prior to visit. Ask us about other available programs!
