An artifact is an object made by a human being.

**Observe the artifact.**
What do you notice about its shape, color, size, or texture?

**Create a diagram.**
What details are important to draw and label?

**Infer - what do you think?**
Who used it? How and why did they use it?

**Talk to a partner:**
Why did you choose to study this artifact?

Does this artifact remind you of something you have seen in your neighborhood, school, or home? If so, what?
